DUKE UNIVERSITY PRESS

ECOLOGY

Established 1920

Editors: Peter W. Frank, Department of Biology, University of Oregon, Eugene, Oregon 97403
Ralph L. Dix, Department of Botany and Plant Pathology, Colorado State University, Fort Collins, Colorado 80521
Monte Lloyd, Department of Biology, University of Chicago, Chicago, Illinois 60637

Coordinating Editor: Forest Stearns, Department of Botany, University of Wisconsin-Milwaukee, Milwaukee, Wisconsin 53201

Book Review Editor: Paul S. Martin, Department of Geochronology, University of Arizona, Tucson, Arizona 85721

Editorial Assistants: Botany, Mrs. Lloyd L. Smith; Aquatics, Mrs. Evelyn Hess; Zoology, Mrs. Rosalie Garber; Reviews, Mrs. C. W. Ferguson.

Business Manager: W. D. Billings, Duke University, Durham, North Carolina 27706

Circulation Office: Duke University Press, Box 6697, College Station, Durham, North Carolina 27708

MEMBERS OF THE EDITORIAL BOARD

1966-68

Thomas Burnett, C. D. A. Research Branch, Box 367, Belleville, Ontario, Canada
Edward W. Fager, Scripps Institution of Oceanography, La Jolla, California
Charles R. Goldman, Department of Zoology, University of California, Davis, California
William P. Lowry, Department of Statistics, Oregon State University, Corvallis, Oregon
Earl R. Rich, University of Miami, Coral Gables, Florida
William H. Rickard, Jr., Biological Laboratory, General Electric Company, Richland, Washington
Philip B. Whitford, Department of Botany, University of Wisconsin-Milwaukee, Milwaukee, Wisconsin
Herbert E. Wright, Jr., Limnological Research Center, University of Minnesota, Minneapolis, Minnesota

1967-69

D. A. Crossley, Jr., Radiation Ecology, Oak Ridge National Laboratory, Oak Ridge, Tennessee
William R. Dawson, Department of Zoology, University of Michigan, Ann Arbor, Michigan
Charles J. Krebs, Department of Zoology, Indiana University, Bloomington, Indiana
Orie L. Loucks, Department of Botany, University of Wisconsin, Madison, Wisconsin
Harold A. Mooney, Department of Botany, University of California, Los Angeles, Los Angeles, California
William A. Niering, Botany Department, Connecticut College, New London, Connecticut
John M. Teal, Woods Hole Oceanographic Institution, Woods Hole, Massachusetts
Richard A. Wagner, Department of Botany, Pennsylvania State University, State College, Pennsylvania

1968-70

Paul K. Anderson, Department of Biology, University of Alberta, Calgary, Alberta, Canada
Peter R. Grant, Department of Zoology, McGill University, Montreal, Quebec, Canada
William J. Hamilton III, Department of Zoology, University of California, Davis, California
Theodore T. Kozlowski, Department of Forestry, University of Wisconsin, Madison, Wisconsin
Clair L. Kucera, Department of Botany, University of Missouri, Columbia, Missouri
Frank J. McCormick, Department of Botany, University of North Carolina, Chapel Hill, North Carolina
George M. Van Dyne, College of Forestry and Natural Resources, Colorado State University, Fort Collins, Colorado
Edward O. Wilson, Biological Laboratories, Harvard University, Cambridge, Massachusetts

Ex officio members: W. D. Billings, Duke University, Durham, North Carolina, and Alan E. Stiven, University of North Carolina, Chapel Hill, North Carolina (the editors of Ecological Monographs).

Correspondence concerning editorial matters, as well as books and papers for review, should be addressed to the appropriate editor at the address given above.

Subscription price in the United States, $18.00 net a year for complete volumes; Canada and the Pan-American countries add 75c for postage; all others add $1.50. Parts of volumes are to be had only at the single copy rate. Current single copies, $3.00. Back volumes, as available, $24.00 each plus postage. Back single issues, $6.00. Special rates to active and sustaining members.

Missing numbers will be supplied free when lost in the mails if written notice is received within one month of the date of issue of next succeeding number.

Remittances for subscriptions should be made payable to Duke University Press.

Remittances for dues should be made payable to the Ecological Society of America.

Business correspondence, including subscriptions, change of address, back numbers, and discontinuances, should be addressed to Circulation Office, Duke University Press, Box 6697, College Station, Durham, N. C. 27708. Correspondence regarding payment of dues in the Ecological Society should be addressed to the Treasurer, William C. Ashby, Department of Botany, Southern Illinois University, Carbondale, Illinois 62903.

Second-class postage paid at Durham, N. C.

TABLE OF CONTENTS, Volume 49, 1968

BAILEY, ARTHUR W. AND CHARLES E. POULTON. Plant communities and environmental interrelationships in a portion of the Tillamook burn, Northwestern Oregon 1– 13

MCCORMICK, JACK AND PAUL A. HARCOMBE. Phytograph: Useful tool or decorative doodle? 13– 20

MACIOR, LAZARUS W. *Bombus* (Hymenoptera, Apidae) queen foraging in relation to vernal pollination in Wisconsin 20– 25

PALMBLAD, I. G. Competition in experimental populations of weeds with emphasis on the regulation of population size 26– 34

MERRITT, CLAIR. Effect of environment and heredity on the root-growth pattern of red pine 34– 40

MITCHELL, RODGER. Site selection by larval water mites parasitic on the damselfly *Cercion Hieroglyphicum* Brauer 40– 47

KOZLOVSKY, DANIEL G. A critical evaluation of the trophic level concept 48– 60

MACIOLEK, JOHN A. AND M. G. TUNZI. Microseston dynamics in a simple Sierre Nevada lake-stream system 60– 75

PEARSON, WILLIAM D. AND DONALD R. FRANKLIN. Some factors affecting drift rates of *Baetis* and Simuliidae in a large river 75– 81

SCHOENER, AMY. Evidence for reproductive periodicity in the deep sea .. 81– 87

GOTTLIEB, G. Species recognition in ground-nesting and hole-nesting ducklings 87– 95

SCHOENER, T. W. AND D. H. JANZEN. Differences in insect abundance and diversity between wetter and drier sites during a tropical dry season 96–110

NEVILLE, M. K. Ecology and activity of Himalayan foothill Rhesus monkeys (*Macaca mulatta*) 110–123

SCHOENER, T. W. Sizes of feeding territories among birds 123–141

ATTIWILL, P. M. The loss of elements from decomposing litter 142–145

MOEN, AARON N. Thermal energy exchange of a birch tree and a spruce tree at night 145–147

LOMNICKI, ADAM, EWA BANDOLA AND KRYSTYNA JANKOWSKA. Modification of the Wiegert-Evans method for estimation of net primary production 147–149

MADGWICK, H. I. A. Seasonal changes in biomass and annual production of an old-field *Pinus virginiana* stand 149–152

WATERS, THOMAS F. Diurnal periodicity in the drift of a day-active stream invertebrate 152–153

WILHM, JERRY L. Biomass units versus numbers of individuals in species diversity indices 153–156

EVANS, J. W. The role of *Penitella penita* (Conrad 1837) (Family Pholadidae) as eroders along the Pacific Coast of North America 156–159

O'HARA, JAMES. The influence of weight and temperature on the metabolic rate of sunfish 159–161

BERRY, R. E. AND L. W. RANEY. A recording photometer for biological studies 161–162

CARLSON, C. A. Summer bottom fauna of the Mississippi River, above Dam 19, Keokuk, Iowa 162–169

ISHAY, J. AND IKAN, R. Gluconeogenesis in the oriental hornet *Vespa orientalis* F 169–171

ROSS, B. A., J. R. TESTER, AND W. J. BRECKENRIDGE. Ecology of mima-type mounds in northwestern Minnesota 172–177

Sameoto, D. D. and R. S. Miller. Selection of pupation site by *Drosophila melanogaster* and *D. simulans* 177–180
Schmid, W. D. Natural variations in nitrogen excretion of amphibians from different habitats 180–185
Sheldon, Andrew L. Species diversity and longitudinal succession in stream fishes 193–198
Anderson, N. H. and D. M. Lehmkuhl. Catastrophic drift of insects in a woodland stream 198–206
Maguire, Jr., Bassett, and Denton Belk and Glenda Wells. Control of community structure by mosquito larvae 207–210
Hamner, W. M. The photorefractory period of the house finch 211–227
Ricklefs, R. E. and F. R. Hainsworth. Temperature dependent behavior of the cactus wren 227–233
Sanders, C. J. and F. B. Knight. Natural regulation of the aphid *Pterocomma populifoliae* on the big-tooth aspen in Northern Lower Michigan 234–244
Lloyd, M. Self-regulation of adult numbers by cannabalism in two laboratory strains of flour beetles (*Tribolium castaneum*) 245–259
Galil, J. and Eisikowitch. On the pollination ecology of *Ficus sycomorus* in East Africa 259–269
Bustard, H. Robert and Peter Greenham. Physical and chemical factors affecting hatching in the green seaturtle. *Chelonia mydas* (L.) 269–276
Getz, Lowell L. Influence of water balance and microclimate on the local distribution of the redback vole and white-footed mouse 276–286
Challinor, David. Alteration of surface soil characteristics by four tree species 286–290
McWilliams, E. L., R. Q. Landers and J. P. Mahlstede. Variation in seed weight and germination in populations of *Amaranthus retroflexus* L. 290–296
Webb, L. J. Environmental relationships of the structural types of Australian rain forest vegetation 296–311
Idso, Sherwood B. and Donald G. Baker. The naturally varying energy environment and its effects upon net photosynthesis 311–316
Lemon, Paul C. Effects of fire on an African plateau grassland 316–322
Caplenor, Donald. Forest composition on loessal and non-loessal soils in west-central Mississippi 322–331
Heilman, Paul E. Relationship of availability of phosphorus and cations to forest succession and bog formation in interior Alaska 331–336
Hulbert, Edward M. and Robert L. Guillard. The relationship of the distribution of the diatom *Skeletonema tropicum* to temperature .. 337–339
Glass, Norman. The effect of time of food deprivation on the routine oxygen consumption of large-mouth black bass (*Micropterus salmoides*) 340–343
Allen, Stephen D. and Thomas D. Brock. The adaptation of heterotrophic microcosms to different temperature 343–346
Allen, Harold L. Acetate in fresh water: natural substrate concentrations determined by dilution bioassay 346–349
Moore, Walter G. and Burn, Alan. Lethal oxygen thresholds for certain temporary pond invertebrates and their application to field situations 349–351
McGregor, Don L. and Robert C. Wetzel. Self-absorption of C^{14} radiation in freshwater ostracods 352–355
Frank, P. W. Life histories and community stability 355–357
Solomon, M. E. Logarithmic regression as a measure of population density response: comment on a report by G. W. Salt 357–358
Kelley, J. J., D. F. Weaver and B. P. Smith. The variation of carbon dioxide under the snow in the Arctic 358–361

Inglis, Jack M., Lynn J. Post, Carl W. Lahser and David V. Gibson. A device for automatically detecting the presence of small animals carrying radioactive tags 361–363
Whicker, F. Ward and Charles M. Loveless. Relationships of physiography and microclimate to fallout deposition 363–366
McNaughton, S. J. Autotoxic feedback in the regulation of *Typha* populations 367–369
Tiezen, L. L. and P. L. Johnson. Pigment structure of some arctic tundra communities 370–373
Vose, Rory N. and Donald G. Dunlap. Wind as a factor in the local distribution of small mammals 381–386
Dole, Jim E. Homing in leopard frogs. *Rana pipiens* 386–399
Gibbons, J. W. Reproductive potential, activity, and cycles in the painted turtle, *Chrysemys picta* 399–409
Jensen, P. Changes in cryptozoan numbers due to systematic variation of covering boards 409–418
Sturman, W. A. Description and analysis of breeding habits of the chickadees, *Parus atricapillus* and *P. rufescens* 418–431
Daubenmire, R. Soil moisture in relation to vegetation distribution in the mountains of Northern Idaho 431–438
Botkin, Daniel B. and Charles R. Malone. Efficiency of net primary production based on light intercepted during the growing season 438–444
West, Neil E. and Kamal I. Ibrahim. Soil-vegetation relationships in the Shadscale zone of southeastern Utah 455–456
Woodwell, G. M. and T. G. Marples. The influence of chronic gamma irradiation on production and decay of litter and humus in a oak-pine forest 456–465
Chouduri, G. N. Effect of soil salinity on germination and survival of some steppe plants in Washington 465–471
Reiners, W. A. Carbon dioxide evolution from the floor of three Minnesota forests 471–483
Wardle, Peter. Engelmann spruce (*Picea Engelmannii* Engel.) at its upper limits on the Front Range, Colorado 483–495
Smithberg, Margaret H. and Conrad J. Weiser. Patterns of variation among climatic races of red-osier dogwood 495–505
Pennack, Robert W. Field and experimental winter limnology of three Colorado mountain lakes 505–520
McIntire, C. David. Structural characteristics of benthic algal communities in laboratory streams 520–537
Reichle, D. E. Relation of body size to food intake, oxygen consumption, and trace element metabolism in forest floor arthropods 538-542
Caldwell, L. D. and C. E. Connell. A precis on energetics of the old-field mouse 542–548
Turner, R. B. and Joseph R. Lannon, Jr. Radiation doses sustained by lizards in a continuously irradiated natural enclosure 548–551
Crowell, K. L. Rates of competitive exclusion by the Argentine ant in Bermuda 551–555
Green, R. H. The estimation of density dependence 555–556
White, Joseph J. and Jerrold H. Zar. Relationships between saturation deficit and the survival and distribution of terrestrial isopods 556–559
Recher, Harry F. and Judy A. Recher. Comments on the escape of prey from avian predators 560–562
Ayala, F. J. Environmental factors limiting the productivity and size of experimental populations of *Drosophila serrata* and *D. birchii* 562–565
Olson, Storrs L. and Kurt E. Blum. Avian dispersal of plants in Panama 565–566
Mehringer, Peter J., Jr., Charles E. Schweger, W. Raymond Wood

AND BRUCE R. MCMILLAN. Late-Pleistocene boreal forest in the western Ozark Highlands 567–568
THOMAS, WILLIAM A. Decomposition of loblolly pine needles with and without the addition of dogwood leaves 568–571
BASKIN, JERRY M. AND ELSIE QUARTERMAN. Light relations of *Psoralea subacaulis* T. & G. (Leguminosae) 571–573
HAZLETT, BRIAN A. Effects of crowding on the agnostic behavior of the hermit crab, *Pagurus bernhardus* 573–575
LUTZ, PAUL E. Life history studies on *Lestes eurinus Say* (Odonata) .. 576–579
MINSHALL, G. WAYNE AND PARLEY V. WINGER. The effect of reduction in stream flow on invertebrate drift 580–582
SHERMAN, KENNETH AND EVERETT SCHANER. Pontellid copepods as indicators of an oceanic incursion over George Bank 582–584
REYNOLDSON, T. B. Shrinkage thresholds in freshwater triclads 584–586
SIMS, H. P. AND D. MUELLER-DOMBOIS. Effect of grass competition and depth to water table on height growth of coniferous tree seedlings ... 597–603
MAUZEY, KARL P., CHARLES BIRKELAND AND PAUL K. DAYTON. Feeding behavior of asteroids and escape responses of their prey in the Puget Sound region 603–619
EVANS, JOHN W. Growth rate of the rock-boring clam *Penitrella penita* (Conrad 1837) in relation to hardness of rock and other factors 619–628
STRYRON, C. E. Ecology of two populations of as aquatic isopod, *Lirceus fontinalis* Raf 629–636
LUTZ, PAUL E. Effects of temperature and photoperiod on larval development in *Lestes eurinus* (Odonata: Lestidae) 637–644
KADLEC, JOHN A. AND WILLIAM H. DRURY. Structure of the New England herring gull population 644–676
MOEN, AARON M. Energy exchange of white-tailed deer, western Minnesota 676–682
HORN, HENRY S. The adaptive significance of colonial nesting in the Brewer's blackbird (*Euphagus cyanocephalus*) 682–694
WHITE, JOSEPH JAMES. Bioenergetics of the woodlouse *Tracheoniscus rathkei* Brandt in relation to litter decomposition in a deciduous forest 694–704
SCHOENER, THOMAS W. The *Anolis* lizards of Bimini: resource partitioning in a complex fauna 704–726
HADLEY, NEIL F. AND STANEY C. WILLIAMS. Surface activities of some North American scorpions in relation to feeding 726–734
LECHLEITNER, R. R., L. KARTMAN, M. I. GOLDENBERG AND B. W. HUDSON. An epizootic of plague in Gunnison's prairie dogs (*Cynomys gunnisoni*) on southcentral Colorado 734–743
BEALS, EDWARD W. Spatial pattern of shrubs on a desert plain in Ethiopia 744–746
COX, GEORGE W. AND GORDON H. DUDLEY. Seasonal pattern of reproduction of the sand crab, *Emerita analoga,* in Southern California 746–751
KULLBERG, RUSSELL G. Algal diversity in several thermal spring effluents 751–755
WELCH, HAROLD E. Relationships between assimilation efficiencies and growth efficiencies for aquatic consumers 755–759
DIMOND, JOHN B., RAYMOND E. KADUNCE, A. STANLEY GETCHELL, AND JOHN A. BLEAS. Persistence of DDT in crayfish in a natural environment 759–762
SEXTON, OWEN J. AND HAROLD HEATWOLE. An experimental investigation of habitat selection and water loss in some anoline lizards 762–767
BELKIN, DANIEL A. AND CARL GANS. An unusual chelonian feeding niche 768–769
MCDONALD, DANIEL J. Mobility in *Tribolium confusum* 770–771

Pulliam, H. Ronald, Eugene P. Odum and Gary W. Barrett. Equitability and resource limitation 772–774
Monro, John. Marking insects with dietary manganese for detection by neutron activation 774–776
Horn, Henry S. Regulation of animal numbers: a model counter-example 776–778
Morse, Douglas H. A quantitative study of foraging of male and female spruce-woods warblers 779–784
Soule, Oscar H. A modified Shardakov method for determining the osmotic characteristics of blood and other body fluids 784–788
Frigerio, Norman A. and William J. Eisler, Jr. Low cost, automatic, nest and burrow monitor using radioactive tagging 788–791
Lewin, David C. Notes on the habitat of *Microtus* in central Illinois ... 791–792
Brisbin, Jr., I. Lehr. A determination of the caloric density and major body components of large birds 792–794
O'Neil, Robert V. Populations energetics of the Millipede *Narceus Americanus* (Beauvois) 803–809
Roberts, Lou Anne. Oxygen consumption in the lizard *Uta Stansburniana* 809-819
Schoener, Thomas W. and George C. Gorman. Some niche difference in three Lesser Antillean lizards of the genus *Anolis* 819–830
Stallcup, Patrick L. Spatio-temporal relationships of nuthatches and woodpeckers in ponderosa pine forests of Colorado 831–843
Taylor, N. W. A mathematical model for two *Tribolium* populations in competition 843–848
Green, Roger H. Mortality and stability in a low diversity subtropical intertidal community 848–854
Lyford, Jr., John H. and Harry K. Phinney. Primary productivity and community structure of an estuarine impoundment 854–866
